

2020-3 – 14. april 2020

Danmark er stadig lukket ned

Selv om skoler og børneinstitutioner åbner delvist nu, er mange af vi andre stadig passiveret. Bl.a. er forsamlingsforbuddet fortsat gældende, og selv om vi nok kan forvente en lempelse fra 10. maj, vælger vi alligevel at aflyse det annoncerede PROFINET-kursus 9. – 10. juni.

PROFINET-kursus er udsat til 4. – 5. november

PROFINET-kurset er således udsat til det, som vi regner med at kunne kalde for "bedre tider", nemlig efteråret, hvor sundhedsmyndighederne forventer, at epidemien er overstået eller i det mindste på stærk retur.

Nærmere information om kurset vil komme i et senere Nyhedsbrev.

Webinars

I denne corona-tid kan vi heller ikke tilbyde internationale workshops, og det er så til fordel for os her i DK:

Et par planlagte workshops nu blevet konverteret til webinars, hvor vi alle kan være med uden at skulle ud at rejse.

I maj måned kan PI (PROFIBUS og PROFINET International) således tilbyde disse to webinars:

- **Industrie 4.0 Technology (tysk)**
- **A Guide to PROFINET Network Commissioning (engelsk)**

Yderligere beskrivelse med indhold, tidspunkter og varighed samt tilmelding på de næste to sider af dette Nyhedsbrev.

Webinar: Industrie 4.0 Technology

**The future is digital and connected ...
... and the PNO starts today with its digital transformation:
From workshop to webinar!**

The current situation surrounding COVID-19 clearly shows the opportunities of digitization. And these can be found especially in the field of communication! Therefore, we would like to enable you to experience the advantages of Industry 4.0 technologies in the field of industrial communication even during this special situation. Because in order to achieve efficient and future-oriented information acquisition, the correct use of suitable technologies is the top priority.

The webinar provides you with information about the current status and the roadmap of the Industrie 4.0 technologies of PI and offers you the possibility to plan the PI technologies in your own product / system roadmap. You will be supported during the webinar by our Industry 4.0 experts who will be happy to answer any questions you may have.

Language

The webinar will be held in German language

Dates:

May 27, 2020 10:00 – approx. 11:30 a.m. OPC UA & Security

May 28, 2020 10:00 – approx. 11:30 a.m. TSN over PROFINET

Webinar:

A Guide to PROFINET Network Commissioning

Are you working on a PROFINET project? This webinar will give you a guide and useful tips for the commissioning stages. The content in this webinar is aimed to support users commissioning PROFINET systems. It will provide guidance on the verification of the correct installation of PROFINET systems. Moreover, this webinar will expand on tools and methods for troubleshooting and diagnostics.

Host: PROFIBUS and PROFINET North America and the PROFI Interface Center

Language: English

Date/Time: Thursday, May 14, 2020 10:00 AM – 11:00 AM MST

NB: Bemærk amerikansk tidsangivelse – dansk tid kl. 19 – 20.

Registration Link: <https://register.gotowebinar.com/register/1583764442062137869>
